The following information is required for the making of your kilt. Please remember that your garment will be only as good as the measurements you take. This is the only information the kilt make has to work from. **Musik de Razi** does not take responsibility for incorrect measurements supplied and **Musik de Razi** is not responsible for measurement errors. Clothes size is not a measurement. A tape measure must be used. Do follow the instructions carefully. Please be careful and measure twice.

Measuring is a two person job and a tape measure and a wooden yard stick is required.

Allow 2 weeks for making.

WAIST AT NAVAL (A-A)
 Measure around the navel, snug measurement standing relaxed. Do not suck in or push out stomach. Do not measure over bulky clothing. Make sure tape measure is up right.

SEAT (B-B)
 Measure around the seat/hips at the widest place. Make

sure nothing in the pockets especially the hip pocket.
Make sure tape measure is up right.

LENGTH (C-D)

Measure kneeling on a very hard floor. Kneel in an upright position. Knees should be 2" apart. Do not look down! With a wooden 36" ruler place the 1" end between the knees and measure to the navel.

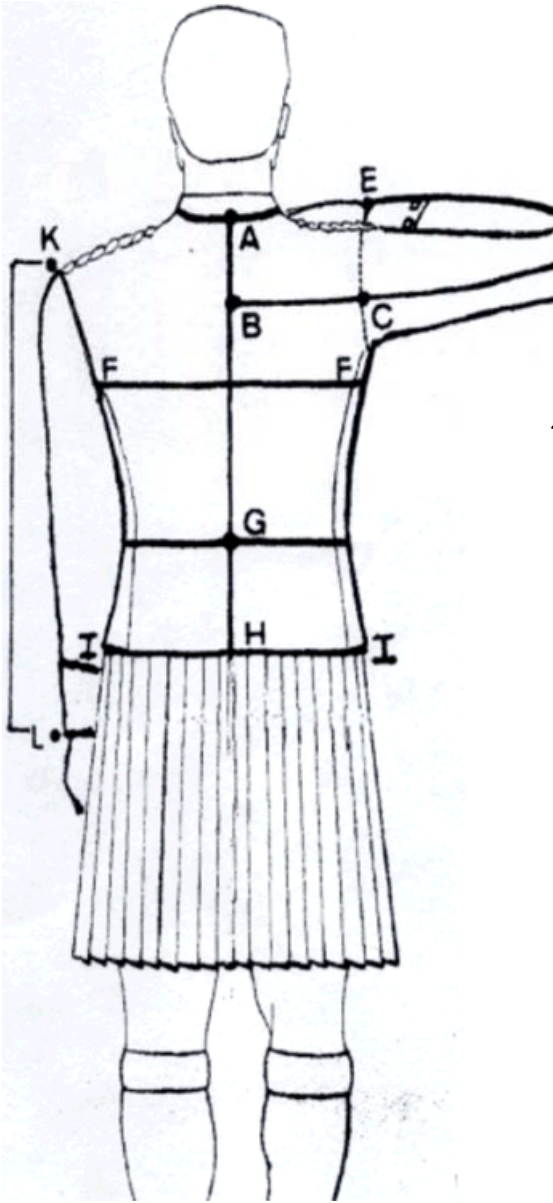

All the supplied measurements above are taken as correct and will be adhered to when producing this garment. **Musik de Razi** does not take responsibility for items not fitting due to incorrect measurements. It is recommended you copy this form for ordering purposes.
